SPSS 23 Teaching & Research Installation Guide (for Mac)
Updated: 6/23/15

This instruction is written based on SPSS 23. SPSS 22 is still offered on the hub; however, we strongly recommend all users upgrade to the latest version.

1. After going through the order process on UVa Software, you should then be directed to receipt screen. Click “Start Download” (highlighted by the red rectangle) to download the installation wizard; keep this page open so that you could refer to the activation code (underlined) during the installation process.

12. Review the following information before proceeding. If everything looks good, select “Install”.

13. The wizard should start installing with a blue bar showing the progress.
14. Once installation completes, the wizard will ask for active license. Select the box if you would like to register for product update; otherwise click “Done”.

15. Search “SPSS” using the native search function in Mac, and click “SPSS Statistics License Authorization Wizard” (to start the licensing process)
16. If the following screen shows up, click “Next”.

17. Select “License my product now” and click “Next”.

18. Copy and paste the activation key on the receipt screen (refer to step 1). Click “Next” to allow the wizard to communicate with IBM server.

19. Once authorization is done, you should see the following screen with green checkmark. Click “Next” to continue.
20. Click “Finish” to exit the installation guide. SPSS 23 T&R for mac has been successfully installed on your computer.

If you encounter any issues during installation, please email res-consult@virginia.edu with problem description and (if applicable) screenshot.
