What is... bibliographic management software?

- Creates a personal database for references (EndNote Library = .enl file)
- Inserts citations into word processing documents (CWYW)
- Creates a stand-alone bibliography (reference list)

A word about macros...

Kinetic studies carried out for the sorption of H₂S in the presence and absence of hydrogen on Cu-V-Mo, Cu-V, and Cu-Mo mixed oxides gave detailed information about the reaction sequences (Yasverli, Dogu et al. 2003). Formation of SO₂ even in the presence of hydrogen at the initial stages of the sorption process showed the partial redn. of the metal oxides prior to the sulfidation step.
